# BRIEF INTRODUCTION

---

WEBPILOT is one of the leading Digital advertising agency in Dubai, UAE, specialised in delivering full-service web solutions and digital marketing campaigns throughout UAE. Some of our most popular services include innovative web design, technical web development, search engine optimisation (SEO), content creation, eCommerce builds and social media strategy.

The company was founded in 2013 and is based in Dubai, UAE. Before it was operating in Kiev, Ukraine. Webpilot believes that internet marketing is essential to the success of any business and seeks to help companies navigate through what has become an increasingly complex industry.

Webpilot operates under the belief that the customer should expect more from a Digital advertising company than just a bill in the mail. We believe the success of your site hinges on the content on your pages, and it is for this reason that every quote we provide includes building websites through the addition of optimized content created by Webpilot copywriters. We firmly believe the end goal is a website that can increase sales and contribute to the growth of your company.

We take this business approach because Webpilot is owned and operated by business people, not technicians, who have successfully owned prior businesses and truly understand and appreciate the challenges of growing a profitable company. We also know that success online depends on a commitment from both parties, a partnership.

# OUR SERVICES

---

We deliver future proof web services for timely ideas in Dubai.

## Web Design

We design and develop responsive, retina ready websites that look universally great on a smart phone, tablet and desktop computer.

## Web Development

We have excellent team of website development professionals who are experienced enough to develop websites of any complexity.

## Mobile Applications

The mobile app revolution is upon us. Every month mobile users in UAE download thousands of apps from the Apple App Store.

## Graphic Design

Our graphic design services are effectively combined with services to increase sales to maintain the success and growth of your company.

## Promotion Strategy

We use design techniques and methodologies to help you transform your brand into stunning user experiences.

## Search engine optimization

Lead your industry online, rank higher on business searches and increase targeted traffic to your site.

## Adwords/PPC Advertising

AdWords helps you to contact users when they search for a word or phrase (we call them keyword) or browse websites that are relevant to the area of your business.

## Social media marketing

We optimize your online presence with the latest and most effective search engine & social media optimization techniques.

## WHY CHOOSE US

---

Welcome to the most effective Internet marketing company. Webpilot offers superior digital marketing services to clients throughout the UAE and beyond. If you are ready to transform your company and become a leader in your industry, you need not look any further. Find below a brief list of what distinguishes us from our competitors:

### **CUSTOMIZED Services:**

We recognize that every company's circumstances are a bit different, which is why we adapt our SEO and marketing plan according to your company's individual objectives, size and budget.

### **Experienced Staff:**

Webpilot has a team that brings together many years of combined experience in all aspects of internet marketing, from content writing and web design to pay per click (PPC) advertising and back-end development.
